1. The amendment filed December 27, 2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "(radius of curvature) equal to T", "a beginning point located at a tangential line of a side of the corner 25...and an ending point located at a tangential line of a side of the corner 25 of an adjacent receiving recess", and "radius of curvature T". The new matter is found in the paragraph beginning at page 9, line 18.

Applicant is required to cancel the new matter in the reply to this Office Action.

2. Claims 1-5 and 7-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 1, lines 9-11, "a radius of curvature..." constitutes new matter unsupported by the original disclosure.

3. Claims 1-5 and 7-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 6, the receiving recesses have a smaller arc-shaped corner than what element(s)?

In claim 1, lines 7-8, the protruding faces have a larger arc-shape than what element(s)?

4. The drawings were received on December 27, 2004. These drawings are objected to by the examiner. Figure 4 shows "L" at a location that was not defined in the original disclosure. In amended figure 4, the location of "L" does not extend between the corners of a recess.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Applicant's arguments filed December 27, 2004 have been fully considered but they are not persuasive.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

However, the claims contain new matter unsupported by the original disclosure and amended figure 4 is not understood as discussed, above.
